Taylor Ward Wins A New 2016 KTM 250 XC
At The 2016 District 36 LAO Fundraising Raffle

Taylor Ward at the 2016 District 36 Awards Banquet wins the LOA fundraiser Raffle Bike!

Taylor with Eric DuCray, owner of Nor-Cal Motorsports........ The District 36 LAO Bike Sponsor

Taylor, a District 36 Member, had the lucky ticket that won the new KTM raffled off in the annual District 36 Legislative Action Office fundraising raffle. This bike has many aftermarket parts supplied by District 36 Sponsors to make it “race ready”. Just add gas and race! The winning ticket was drawn at the 2016 District 36 Awards Banquet January 7th and Taylor was present to accept the win!

Taylor with Dave Pickett, the bike and all “Extras” that came with the bike.

Wonder who won all the other raffle prizes? ....see page 10 for a list of the prizes and winners.....
I went to bed at eight o'clock in the evening and wound up my clock and set the alarm to sound at nine o'clock in the morning. How many hours sleep would I get before being woken by the alarm?

Don't Be A Dinosaur And Become Extinct!

You heard me, you could be the next dinosaur and simply become extinct! There is an anti OHV element that wants you gone from this planet or at least from anywhere they might want to go (heck they want you gone from places even they don't want to go like clear creek)

Your OHV opportunity is in SERIOUS jeopardy! There is a bill in committee, SB 249, that would all but eliminate your OHV monies from going to your OHV opportunities. That's right, they want your gas tax monies and registrations (that doubled two years ago) to go to non OHV opportunities. Along with that they want to all but eliminate the OHV Commission that fights for our OHV opportunities.

Here's how you can help. Go to the District website and check out the article “Save The California OHV Program – Pick Up The Phone!!” You will find some more information on this proposed Senate Bill that has been written to eliminate the OHV fund and the OHV Commission. You will also find a contact list of the senators on the committee that is hearing this. Call each person on the list to voice your disapproval of SB 249 (they all need to hear from you for a full impact). Just so you know..... this is a fast process and should take no longer that 12-15 minutes for the whole list. You will actually be talking to a staffer and all they need to know is that you oppose the bill. YES, each call makes a difference by adding to the number of opposed voters. And yes, call even if you don't vote!

Let the Committee know you want your OHV funds (the money you pay into this) to stay where it belongs!

PLEASE DO THIS.....DO IT NOW......DO IT FOR YOUR KIDS

Thank you,
Jerry Fouts,
President AMA District 36

Forest Service invites public to help identify priority trail maintenance work
Partners, volunteers integral to addressing maintenance backlog

PLACERVILLE, CA - The Pacific Southwest Region (Region 5) is inviting the public to help identify trails that will be part of a U.S. Forest Service effort with partners and volunteers to increase the pace of trail maintenance.

Nationwide, the Forest Service will select nine to 15 priority areas among its nine regions where a backlog in trail maintenance contributed to reduced access, potential harm to natural resources or trail users and/or has the potential for increased future deferred maintenance costs.

Region 5 manages more than 16,000 miles of trails enjoyed by 16,100,000 users each year. In Region 5, volunteers and partner groups contributed more than 178,000 hours in maintenance and repair of nearly 2,984 miles of trails last year.

"We are counting on our fellow Californians to help us identify where maintenance is needed," said Randy Moore, regional forester for the Pacific Southwest Region. "The forest visitors who enjoy these trails year-round are the best source of information for what's needed on the ground, and we're counting on their expertise and willingness to help."

Region 5 has until April 15 to submit at least three regional proposals to National Headquarters. Those proposals will be weighed against proposal submitted by other Forest Service regions.

The trail maintenance effort is outlined in the National Forest System Trails Stewardship Act of 2016 and aims to increase trail maintenance by volunteers and partners by 100% by the end of 2021.

The selected sites will be part of the initial focus that will include a mosaic of areas with known trail maintenance needs that include areas near urban and remote areas, such as wilderness, are of varying sizes and trail lengths, are motorized and non-motorized, and those that incorporate a varied combination of partner and volunteer approaches and solutions.

The Forest Service manages more than 158,000 miles of trails - the largest trail system in the nation - providing motorized and non-motorized trail access across 154 national forests and grasslands. These Forest Service trails are well-loved and highly used with more than 84 million trail visits annually, helping to support mostly rural economies.

The Forest Service receives widespread support from tens of thousands of volunteers and partners each year who, in 2015, contributed nearly 1.4 million hours - a value of about $31.6 million - in maintenance and repair of nearly 30,000 miles of trails.

However, limited funding compounded by the rising cost of wildfire operations, has resulted in less than 25 percent of Forest Service trails meeting all of the agency's standards for safety, quality recreation and economic and environmental sustainability. The remaining trails meet standard to varying degrees.

To provide ideas and suggestions on potential priority areas and approaches for incorporating increased trail maintenance assistance from partners and volunteers, contact Michelle Zuro-Kreimer, Eldorado National Forest Assistant Recreation Officer, at 530-622-5061 or mzurokreimer@fs.fed.us.

USDA is an equal opportunity provider, employer, and lender.

The mission of the U.S. Forest Service, an agency of the U.S. Department of Agriculture, is to sustain the health, diversity and productivity of the nation's forests and grasslands to meet the needs of present and future generations. The agency manages 193 million acres of public land, provides assistance to state and private landowners and maintains the largest forestry research organization in the world. Public lands the Forest Service manages contribute more than $13 billion to the economy each year through visitor spending alone. Those same lands provide 20 percent of the nation's clean water supply, a value estimated at $7.2 billion per year. The agency also has either a direct or indirect role in stewardship of about 80 percent of the 850 million forested acres within the U.S., of which 100 million acres are urban forests where most Americans live.
Help Wanted—LAO

Well it had to happen, Dave Pickett our Legislative Action Officer has decided he would like spend more time with his family and especially his grandkids. He would really like to reduce his District activities to part time after this year. He will always be a valuable resource to our organization, and his experience in his field is irreplaceable.

That said the District is starting early to find someone with a passion for our riding areas, and organizational skills to manage our LAO program. This is a paid position by Contract. If you or anyone you know is interested in helping out and getting paid to do it please contact me. Dave Pickett is probably the best mentor on the planet and we will use him to help a prospective LAO officer learn the ropes and get his feet wet so to speak. I'm looking forward to hearing from you.

Six Hours of Glen Helen Fun???

So did you ever have one of those moments when you hatched a crazy idea after waaay to many Coors lights with your buddies in the garage? Well yours truly started to reminisce about how difficult Virginia City was back in the day, four and a half hours turned into five or so depending how far back you were. Then Travis McRae (the goofy son of an even nuttier Dave McRae) chimed in that he had raced the several versions of the Glen Helen endurance races. So that was it, a nutty idea born of too many beers, shepherded by a former test pilot for any motorcycle manufacturer that would pay him to ride and ride and ride. So naturally, without asking my wife, I grabbed on with both hands and started planning to race at a place that, quite frankly, is not on my list of garden spots in the state. But lest I regress.... I have a Honda CRF450R with very little time on the motor, and a zillion parts and spare wheels, not to mention, quick fill capability. All I need is three riders willing to thrash about Glen Helen for two hours each in 1/2 hour stints.

Well I already have one volunteer in Travis, our bungling expert former MXer, my son who was coming off the couch or Golf course which was more convenient, and a Ringer of some kind. Low and behold Travis's younger brother had a former roommate who is now Taylor Robert's roomie, who is now making a name for himself racing anywhere he can. Mitch Carvolth came highly recommended from everyone we could talk to and, better yet, he was cheap... now things were getting serious. So as I started to talk to the riders, I soon found out one wanted to ride "ole Betsy"–you know, the bike I had a ton of parts and spares for. Well then my son Robby volunteered his brand new Dungey edition 450 for the ride. Now things are really getting serious. This created a lot of interest from Travis, but especially from Mitch, who had a ton of KTM experience. That created another challenge.... spares, spares, and more spares. Tires, tires, and more tires... holy crud, was it ever going to end. Next Modesto KTM got in the act helping with the team. Now things are really, really getting serious!

So what started out as a half-hearted idea fueled by liquid courage was now a full-on serious effort that required the expertise of a real expert in endurance racing of all types. Enter Chris "the professor" Real. Chris is generally regarded as a jack of all trades when it comes to motorcycle racing, testing and team building. As a scientist and engineer of lubricants, I was sure he could provide expertise to see us through this event, if only we would listen to him.

Off to So-Cal we go to meet up with Mitch from Arizona and Chris to sit down at dinner and develop strategy on how we can make this now super serious effort successful.

Well the kids, Robby and Travis, promised no beer (or golf, in Robby's case) for a week ahead of the race (really serious for them) and I don't think Mitch has ever had a beer, and I needed a beer after my wife finally got the visa bill for all the spares! So now Chris tried to sit us down and really get us into a successful frame of mind. After a dinner filled with experience, guidance, and planning, the kids decided to run the jackrabbit first. Not one to eat anyone's dust sounded like a good idea at the time. Well in practice that put us in a good position to deal with the problems that can occur when you go out hard. Unfortunately we experienced problems with the motor that caused even more problems with how the riders could ride the bike.

By the halfway mark we had dropped off the podium and were still confounded as to why a new bike fuel injection system was sputtering. Even after some drastic measures, the motor was still not cooperative.

.................Continued next page
Glen Helen Fun continued……

But we soldiered on, Mitch leading the way by calmly riding what he had and making the best of it. Maybe it was karma or the moto-gods, but the KTM started getting better, the lap times were getting better, and we were gaining on a spot on the podium! But alas we ran out of time. Wouldn't you know it—in a long race we were hoping it was longer to get us back on the podium. But it was not to be. Simply put the other guys rode better, and smarter that day. But the old saying "experience is never cheap" really resonated with all concerned that day. Just like the old saying in endurance racing that "the race really only begins at the halfway mark."

I really appreciate all the effort put in by my team for that event. The results don't really show how hard we all worked to finish fourth, but that's how this game is played. The good news is that everyone had a good safe ride and we all learned to listen to the "old guy in the corner" when it comes to finishing something new.

Would I do it again – HELL YESSSS!! I just have to do a better job of hiding the Visa card bill until after the race!!!!

If you ever wondered how the Legislative Action Office Raffle comes together take a look at Dave Pickett’s storage.

Pictured is most (and still not all) of the aftermarket parts for the LAO bike plus additional prizes awarded with the bike and separately. Dave also takes delivery on the bike itself and it’s falls on him to install all the aftermarket parts our sponsors so generously donate.

The stock parts are boxed up and all this and the bike is hauled to the Banquet. Once the winner is drawn, Dave then packs up all this stuff, takes it home and later on again packs it up to take to the location where the winner officially takes possession of the bike and parts.

And this is not to mention all the time spent working with sponsors to get the parts and the times the bike is transported to races for display. ……….Whew

District 36 Membership Information

Did you know?

- D36 memberships expire on the last day of the month/year that is noted on the card, not the first day of that month. (Noted in the small print on the card or renewal notice.)
- Membership expiration dates don’t get set by the exact day of the month you bought the membership. (See D36 rule 2.3)
- If you renew your membership timely, the expiration date extends one full year.
- If you wait longer than one month after the expiration date to renew, the expiration date will adjust according to rule 2.3.
- When a membership remains “expired” longer than one full year, there is no guarantee that the same membership number can be reassigned when it does get renewed. (See D36 rule 2.3)
- Membership numbers that have been in “expired” status longer than one year are subject to ‘release’ and they become available for new members, or for any member who has submitted a membership number change request.
- D36 Cross Country racing rule 7.6.10 specifies that all unranked A and AA class riders will use their D36 membership number as their bike (racing) number. It also specifies that all three number plates on the bike will display the rank number or the D36 membership number. (Please do not badger the scoring team to get them to program your transponder to any different number and please don’t run other numbers on your plates.)
- D36 membership applications that are not signed with the valid/legal signature cannot be processed until the correct signature has been acquired. (Everyone 18+ years old must sign their own application. 18+ year olds are no longer eligible to be included on a family membership, even if they still live at home.)
- Receipts for memberships are only valid for 40 days. (D36 rule 2.8) If you do not receive your card within 30 days from the date you purchased the membership, please contact d36memberships@att.net.
- There is a lot of helpful membership related information on the D36 website – www.ama-d36.org. Go to the ‘Resources’ selection under the “Members” heading at the bottom of the home page. Also go to the ‘Join’ or ‘Renew’ selection and scroll down below the online application for additional information.

Carnegie tree planting day

The weather couldn't have been better for a walk in the creek. After record rains this winter caused havoc with our precious park, the Carnegie ranger staff was totally overwhelmed with just getting the park back in operation. So with a short window (for successful tree growth) to plant over 600 trees, the park was left scrambling.

Leaders from District 36, Carnegie Forever, CORVA, Cal 4WD, Bay Area Riders Forum, and others put together a plan to help get these trees in the creek bed so they would get a good start in returning the valley floor of Carnegie to a condition not seen in 100 years. Through a combination of social media, word of mouth and flyers posted by the state, a great turnout of volunteers showed up for a few hours in the mud. Led by Superintendent Randy Caldera, Clint Elsholz, Tara deSilva, and members of the California Conservation Corps, the volunteers were given a short lesson in tree planting and how these trees would improve the park for its visitors and permanent residents (you know the critters).

All in all the day was a booming success with over 100 volunteers and kids playing and planting in the mud, with their parents permission! D36 supplied Dogs ‘n Snacks, and even delivered the food to hungry workers in the creek-bed.

Thanks to all who made this event a booming success. Including the Red Neck Roosters MC, Hayward MC, and many others. I think this shows that we really care about our park and are willing to put in our time and effort to improve it. Also Carnegie has shown that a park that was ravaged in a time of unorganized recreation forty years ago can recover and become a sustainable resource that State Parks can be proud of.

A big thanks to Wandering Wheels Jeep Club, Diablo wheelers, Save Corral Hollow Watershed.

Spring 2017 Enduro Stewards Report

The 2017 D 36 Championship Enduro series gets under way on April 2 with the NBMC Sawmill Qualifier. Plus they have the Crosscut Family Enduro the day before on April 1. With round 2 the Fools Gold Enduro put on by CERA on May 7.

There is a good possibility that the Buckhorn Enduro by RDR will be coming back this fall. A date has not been set yet. Plus it is sounding like it might be a Sprint Enduro Format.

IRC Tire is back again this year as a Major sponsor for the D 36 Enduro series along with DDNMC, Mojo, ICO, Double Take mirror, 707, GOT, Kay wines and MX1 west. Lots of prizes to giveaway at every round.

The Top ten Enduro riders for 2017 (with the top 5 being AA) are:
1. Ryan Powell
2. Jordan Brandt
3. Joel Burkett
4. James Ptarcinski
5. Gabe Ellis
6. Ryan Boardman

The District 36 Operations Manual is a rulebook covering District 36 Procedures and Competition. Procedural rules are decided on by the District 36 Board of Directors and rules governing Competition are decided on by the District 36 Competition Committee.

Do you, as a current member of District 36, have a rule proposal you want to get submitted? If so you will need to fill out a Rule Proposal Form and submit it to the appropriate steward...CC rules to the CC steward Ray Spore, Enduro Rules to the Enduro Steward John Davis, and Dirt Track Rules to the Dirt Track Steward, Carter Fisher. If your proposal is not discipline specific or applies to all disciplines you will submit your proposal to the Rules Chairman, Dave Bickle and the Director of Competition Bill McGibbon.

We have rules for Rule Proposals and it’s recommended that if you're submitting a proposal you review the current District 36 Operations Manual, section 1.6 Rulebook.

The Rule Proposal form is editable (you can fill them out on your computer – and “save as”) or print them and fill them out by hand. To submit your proposal:

- **Submitter must be a current District 36 Member.**
- **Fill out a Rule Proposal / Change Form completely.**
- **Submit the proposal by one of the following:**
  - Send the proposal electronically to the appropriate person. You will find a list of steward contacts on our District 36 Contact Page.
  - Hand it to a Steward at a meet.
  - Hand it in at a monthly D36 Meeting
  - Mail it to the District 36 PO box (see contact page)

*Rule Submission Deadline—Oct 15*

Rules submitted and approved take effect the following year.

**SHOP AMAZON.com AND HELP BLUE RIBBON COALITION**

*by Dave Pickett – D36 LAO Director*

Shop Amazon under a special log-in and you will be supporting D36 LAO land use partner Blue Ribbon Coalition/ShareTrails with ½ % of your purchase DONATED automatically to The Blue Ribbon Coalition. This donation comes directly from Amazon and is at NO COST TO YOU.

If you shop amazon please take a few minutes and Go to [https://Smile.Amazon.Com](https://Smile.Amazon.Com). Here you will sign in with your regular Amazon Account information - then look for Charity Look Up. Enter the following (copy and paste), BlueRibbonCoalition,Inc./ShareTrails.org and hit enter. Next add the link [http://smile.amazon.com](http://smile.amazon.com) to your favorites list. This link is where you go to purchase products from Amazon.Com and does not interfere with an existing account, it will be your regular account but under a different log in.

And that’s it! No muss, No fuss and the donation is automatic..... you need do nothing more. A GREAT program to help fund those partners that are fighting for our rights.

If you are NOT a BRC/ShareTrails member, you should be.................. To join: [https://ShareTrails.org](https://ShareTrails.org) A GREAT way to start the year for sure!
Look for our products at your local motorcycle shop!
Did you Know....

..... that if you join or renew your AMA Membership by clicking on the banner below or the same banner on our website that District 36 gets a rebate for each AMA membership? By using this link you can further support District 36 at no additional cost to you.

So please Join or Renew your AMA Membership by using our banner link. And, (drum roll please)......

Thank you
